STUDENTS OFFERED TEXTILE TRAINING

11 COURSES ORGANIZED -- Gazeta Handlowa, No 303, 28 Sep 49

The Central Sales Office of the Textile Industry has organized 11 courses since the war for the training of marketing personnel for the textile industry. Courses of several months' duration have been attended by 400 persons. Special courses on marketing analysis were attended by 125 persons.

The Central Sales Office, in cooperation with the Main Business School in Lodz, organized special courses in textile marketing for third-year students. These courses will become a permanent part of the school's curriculum.

The first 60 graduates of the Main Business School received paid summer jobs in textile plants and studied the textile industry and markets at first hand.

The Central Sales Office also offered paid summer field work to all graduate students of Poland's high schools and business colleges. The response, however, was very unsatisfactory. Only 40 students responded to the offer of the Central Sales Office, which controls over 580 outlets in Poland.

This year, the Central Sales Office organized the first high school for textile marketing in Poland. Unfortunately, the school has no dormitories for out-of-town students.

SCHOOL LUNCH PROGRAM ASKS AID -- Dziennik Polski, No 274, 6 Oct 49

In 1945, a school lunch program was organized by the school authorities. The program is now in operation in 1,500 schools, nursery schools, and recreation rooms and reaches about 172,000 children. The state allotment and the aid of various institutions are not sufficient to continue this program. Parents, especially those financially able, are asked to contribute. It is imperative that parent committees pay particular attention to this activity so that a larger number of children can be served, especially children from rural communities.
